

# Math & Stats Lab (Ross S525)

## Fall 2022 Students Guide

The Math & Stats Lab is a FREE (!), walk-in, one-on-one Q&A style tutoring service offered by the Department of Mathematics and Statistics for all first and second-year students enrolled in a mathematics or statistics course.

Everyone is welcome! You do *not* need to be a math related major to access this service.

### Location and Hours

The Lab is located in **Ross S525**. It opens **Monday to Friday at 10:30 am** during the Fall 2022 term, excluding public holidays, University closures, and December 7, 2022 (Fall Study Day). It runs until the last day of math-related exams.

Schedules for tutors can be found at the following link.

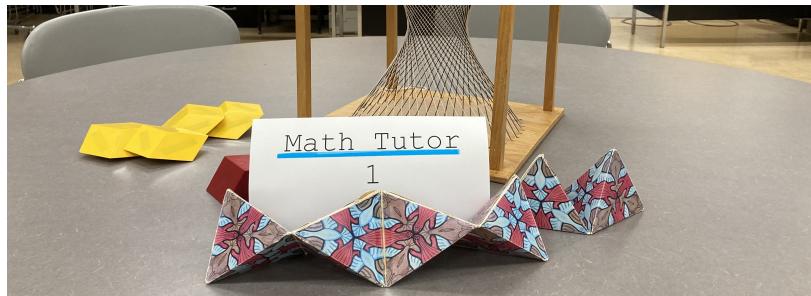

<https://ktychan.gitlab.io/misc/mathlab/>

The Lab also functions as a *study space*. Past students have indicated that studying in the Lab help build their study habits and improve grades!

## How to get help?

You can expect to receive one-on-one help from graduate students in the Department of Mathematics and Statistics. They can help you understand concepts relevant to your studies, work through practice problems, or answer any general math-related questions.

Friendly tutors can be identified by signs that read *Math Tutor* or *Stats Tutor*. Simply approach one of them and ask for help!

Please note tutors *cannot* help you with for-credit problems such as quizzes, assignments, and take-home tests.

## Help us improve MathLab!

Please tell us about your experience in the Lab by filling out the feedback form.
